

The Cognitive Control of Eating Behavior and Food Intake

Public Colloquium
Junior Research Group Leader DIfE – NeuroCure

May 22nd, 2019, DIfE Conference Center

- 09:00** **Jan M. Ache**
HHMI - Janelia Research Campus, Ashburn/USA
Integration of behavioral and metabolic states in the fly(ing) nervous system
- 09:30** **Riccardo Dore**
Universitätsklinikum Schleswig-Holstein, Lübeck
Interaction between metabolism and reward-related behavior
- 10:00** **Rachel Lippert**
Max Planck Institute for Metabolism Research, Köln
Developmental programming of brain circuits mediating behavior: From Melanocortins to Dopamine
- 10:30-10:45** Coffee break
- 10:45** **David Oswald**
Charité - Universitätsmedizin Berlin
The hungry fly: rewards, memories and internal states
- 11:15** **Lisa Scheunemann**
Freie Universität Berlin
Memory Suppressor Systems: serotonergic control of behavioral output
